

## Who we are.

The Förderverein Johann-Wallraf-Schule e.V. was founded in 1995 by committed parents and now has well over 100 members. The day-to-day business is carried out pro bono by the association's board, whose members are happy to answer any questions you may have. Their contact details may be found on our homepage <http://johann-wallraf-schule.de/foerderverein.html>.

## How we support the school.

Our goal is to support the school in its educational work, especially financially, and thus to promote the academic and personal development of our children. Sourced by membership fees, donations and income from our own activities, we therefore fund, for example, additional teaching materials and learning aids, and also the organization of cultural events and the purchase of musical instruments, books for the school library or sports equipment. We also contribute to the support of needy children.

The school management submits appropriate proposals to us. Ideas and suggestions from parents are very welcome. Once a year, the use of the income is discussed and decided at the general meeting.

## How you can help.

You can strengthen our association through your membership and through monetary or in-kind donations and thus do something for the children at the Johann-Wallraf-Schule. For monetary donations, of course we can issue a donation receipt for the tax office.

## Where is the money going?

Here are some examples:

Attractive playgrounds

Outstanding activities in the project weeks

up-to-date media devices and tablets
